Profile

Front-end developer with 2+ years of experience specializing in **Angular, JavaScript/TypeScript, React.js and UI/UX optimization**. Proven track record in building scalable web applications, enhancing user interfaces, and collaborating with cross-functional teams. Passionate about creating seamless, responsive, and high-performance digital experiences.

Professional Experience

Altromeda, *Front End Developer (Remote)*   June 2025 – present
  Working on Angular projects focused on performance and scalability. Implementing clean UI, managing state, and collaborating with cross-functional teams to deliver high-quality features.

A Plus, *Front End Developer (Remote)*   April 2025 – present
  Building and maintaining Angular-based web applications. Responsible for creating dynamic UI components, handling API integrations, and ensuring responsive design across devices.

Sintac Code, *Front End Developer*   June 2023 – April 2024
  Worked on real projects using React to build interactive web interfaces. Gained hands-on experience in UI design and improved user experience by developing and updating components

Error Company, *Front End Developer (Intern)*   February 2023 – July 2023
  Worked on building and styling web pages using HTML, CSS, and JavaScript. Helped improve user interfaces and fix layout issues.

Education

Menoufia University,   October 2021 – July 2025
Faculty Of Science Department Computer Science

Projects

Pickup LMS (Graduation Project) ⧉
  Developed a learning platform using Angular with dedicated views for students and instructors.
  - **Students' View:** Register, view available courses, enroll, make payments, attend live sessions, access recordings, communicate via chat, take quizzes, and manage tasks through a built-in to-do list.
  - **Instructors' View:** Register, create and manage courses, track enrollments and payments per class, calculate total profits, schedule sessions, communicate with students, create quizzes, and manage tasks.

Clinic Management System, *Web Application* ⧉

  Developed the frontend of a medical clinic management system using Angular. The system supports appointment booking, patient records, visit history, and real-time notifications via SignalR. Designed and implemented dynamic role-based dashboards for doctors, assistants, and patients, ensuring a responsive and smooth user experience.

Company Portfolio Website – Altromeda, *Landing page* ⧉
  Built a responsive Angular website for Altromeda with sections like Home, About, Projects, Contact Us, and an interactive chatbot for user support.

Mourad Motors, *Car Dealership Website* ⧉
Built a dynamic Angular website for showcasing cars with filtering, car details, contact form, and a fully responsive design tailored for Arabic users.

El-Wafedeen, *Multilingual News Portal* ⧉
Developed an Angular-based news website for Menoufia University targeting international students, supporting over 11 languages with flag-based language switching and responsive design.

E-Store, *E-Commerce Website* ⧉
Designed and developed a modern e-commerce platform using Angular, featuring product listings, promotional banners, shopping cart functionality, and a clean, responsive UI tailored for Arabic-speaking users.

Dashbord E-Store ⧉
Developed a responsive and user-friendly E-commerce dashboard using modern web technologies such as HTML, CSS (Bootstrap), JavaScript, and Angular.

Mafhoom Eduation, *Web Application* ⧉
Discover limitless learning with our Angular powered platform. Innovative, flexible, and user-friendly, it revolutionizes online education.

El-Tayseer Center, *Medical Center Website* ⧉
Developed a responsive and multilingual medical center website using pure HTML, CSS, and JavaScript. The site includes sections like About, Specialties, and Contact, with a clean UI and an appointment booking feature.

Skills

- HTML & HTML 5	- CSS & CSS 3	- Bootstrap 5,4	- Tailwind
- Git & GitHub	- JavaScript (ES6 ,OPP)	- Design Patterns in JS	- Rest API Implemention
- TypeScript	- Angular 16 => 18	- Angular Material	- NG Prime & NG Zorro
- React JS	- Express js	- Node JS	- MongoDB
- C# & OOP	- DataStrucre	- JQuery	- SQL
- Signal & NGRX	- Redux Toolkit	- Redux	- figma

Soft Skills

- work under stress	- Problem Soloving	- Good commitment.
